Meera Cheruppolil Aji
Analyst/Software Engineer

Base Location : Bangalore
Email ID : meera.aji@capgemini.com
Mobile Number : +91 8281994104
Grade : A4

Competencies

- Good understanding of Integration Principles and Design Patterns.
- Ability to design and proficient in using Anypoint Platform to build, deploy, manage, and govern APIs.
- Good knowledge on MuleSoft Integration Best Practices.
- Hands on experience in building API-led and Connector-based integrations.
- Good understanding on Agile Methodology.
- Have basic understanding of HTML and CSS

Mule Specifics

Exchange,Standard Connectors,API Manager,Runtime

Manager,Access Management,Dataweave,Scheduler,Exception

Handing,Logging,Munit,Monitoring

Integration Experience

- Designed and developed RAML based API using Anypoint platform and implemented the RAML in Anypoint Studio using API Kit Router
- Basic knowledge on API policies like 'Basic Authentication', 'HTTP Caching' and 'Client ID Enforcement'.
- Implementation of basic Mule flows using scopes, flow control, transformations,validations and error handling strategies.
- Used Dataweave transformations to handle diverse set of message formats like JSON, XML, CSV, etc. and have worked on various operators like map, pluck, Arrays, lookup and filter.
- Practical knowledge of batch job implementations and JMS.
- Used HTTP and database connectors to implement API methods and access the data from database.
- Created CI pipeline in Jenkins to clone the source code from Git, execute MUnits and deployment on CloudHub

Education

Bachelor of Technology
Computer Science
Engineering:2016-2020

Certificates

MuleSoft Certified Developer-Level 1
Agile Methodology

Skills

Mule 4
Agile Development
XML, JSON
JMeter Testing

Database

SQL Database-MySQL, PostgreSQL

Web Technologies

HTML
CSS

AddOns

GitHub
Postman

Additional Details

Excellent Communication Skills
Team Player
